BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application of Southern California Edison
Company (U 338-E) For An Order Under Section
701 of the Public Utilities Code Granting
Southern California Edison Company
Authorization to Recover TRRRMA Costs.

Application 01-02-030
(Filed February 28, 2001)

ORDER CLOSING PROCEEDING

In this application, which was filed early in 2001, Southern California Edison Company (Edison) asked for authority to recover costs that had been tracked since 1998 in the Transmission Revenue Requirement Reclassification Memorandum Account (TRRRMA), which had been established by Resolution E-3544.

On August 21, 2003, the Commission issued Decision (D.) 03-08-062, which authorized Edison to recover in rates the entire amount that had been booked in TRRRMA. Because the rate mechanism through which Edison had originally sought to recover the TRRRMA costs was no longer in existence, Ordering Paragraph (OP) 3 of D.03-08-062 directed Edison to file, within ten days after the effective date of the decision, tariff changes that would permit recovery of the TRRRMA costs through Edison's Electric Distribution Revenue Adjustment Balancing Account (EDRABA). On September 2, 2003, Edison filed its Advice Letter 1740-E, which proposed the necessary changes to the EDRABA tariffs to allow recovery of the TRRRMA costs.

Now that Edison has made the filing required by OP 3 of D.03-08-062, there is no reason for this docket to remain open. The issues raised by Edison's application have been resolved, the necessary compliance filing has been made, and thus no work remains to be done in this proceeding. In view of this situation, we will order this docket to be closed.

Waiver of Comment Period

This is an uncontested matter in which the decision grants the relief requested. Accordingly, pursuant to Section 311(g)(2) of the Public Utilities Code, the otherwise applicable 30-day period for public review and comment is being waived.
